

Assignment 4 (In Class) Name Aharon Nesbitt

1. Your target for this assignment is to use bootstrap framework/Tailwind and or CSS grid system to style your ContactMe.html file.
2. Here are specifications for this assignment.

- ☐ Add appropriate links to load bootstrap essential files
- ☐ Update your "contact.html" document as follows
 - Add a navigation section to the top of your ContactMe.html
 - Add a form help text element below your input box
`<small class="form-text text-muted"> Your email</small>`
- ☐ Style your contact form
 - Layouts: Use CSS grid/bootstrap to create the given layout in lecture.

- Navigation Bar is fixed on top of the window.
 - Contact form and video frame are displayed side by side.
 - Font, Color
 - Pick a bootstrap font weight class `_fw_bold_` and apply the style to lists.
 - Pick a bootstrap background color class `__Bg-color-tertiary_` and apply it on navigation bar
 - Floating Label:
 - Implement floating label to input box
 - Input box, Selection box, Textarea:
 - Apply form-control class
 - Range
 - Apply form-range class
 - Radio /Checkbox:
 - Apply form-check/ form-check-input/form-check-label
 - Any other bootstrap class: `__video-fluid__` , `__py-1__` , `__rounded p-3__`
 - Border: Add border to video frame
 - Margin/padding: Use bootstrap space utility class to set margin/padding appropriately
- ☐ Submit your Test your HTML document on at least three different browsers and two different device(Mobile/computer). Please comment on whether there are any style differences and whether your design is a responsive web design.

It works on firefox, Chrome and edge, as well as Chrome for Android. The view in mobile is quite different, it took some effort to make it work. Before it simply displayed it side by side, but by adding the viewport and resizing the iframe with bootstrap it allows for the right ratios. Chrome and edge are similar, but there are a few differences, firefox on the other hand is quite different, with the video controls, color, and the file uploader as the worst offenders.

- ☐ Before you submit your file, be sure to check this checklist.
- ☐ To submit: Upload your files to GitHub
